ATTORNEY GENERAL

Honorable Patrick A. Gleason
Chairman, Select Committee on

B-10 Main Capitol
Harrisburg, Pennsylvania

Dear Representative Gleason:

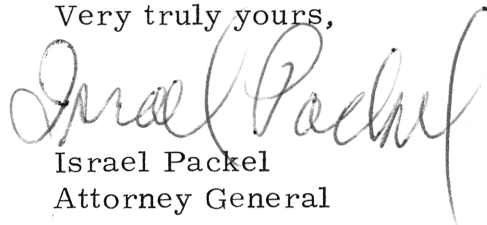

In response to your letter of July 23, 1974 attached are the available data on all non-bid Service Purchase Contracts let by the Department of Justice during the requested period.

All contracts, except Service Purchase Contracts, to which this Department is a party are administered by the Department of Property and Supplies.

The attached contractual data are for the period July 1, 1971 through August 5, 1974. All prior contract files had been placed in storage, and were either destroyed or lost during the flood of June 1972.

Please note that the "Amount of Contract" figures shown in the attached data reflect a "not-to-exceed" amount, which in many cases resulted in a lesser actual payment.

Very truly yours,

Israel Packel

Dear Chairman Gleason:

I am in receipt of a letter from Special Counsels Stephen F. Freind and J. Michael Willmann pertaining to your letter concerning the Stagg case.

At the request of the Department of Justice, I have directed that files and other materials relating to the above mentioned action be turned over to Deputy Attorney General Kathleen H. Larkin of the Litigation Division. While the Department of Commerce retains a significant interest in repayment of the loan and prosecution of culpable individuals, the responsibility for decisions bearing on the course to be followed in investigation and litigation rests with the Department of Justice. I have been assured that all efforts will be made to secure such civil or criminal remedies as may be appropriate.

It is my understanding that the question is still before a federal grand jury in New York. In that Ms. Larkin is managing the case, and has cooperated with your staff in filling other requests, it would seem that she is the individual best able to determine what information may be made available at this time.

If I can be of further assistance, please feel free to contact me.

Very sincerely yours,

Dear Representative Gleason:

In response to your subpoena to me as chairman of the Potter County Republican Committee, please be advised that I was elected chairman of this Committee on June 21, 1974, and assumed office July 1, 1974. As such, there has been no fund raising since I have become chairman.

However, I was able to locate from the past chairman the records which I submit herewith.

You will also note that it was past practice of our Committee to forward all funds to the Republican State Committee in Harrisburg, and for the State Committee to issue the required receipts and the State Committee would also refund to the County, moneys for campaign purposes as we requested, and all receipts for such disbursements were filed in the office of the Election Bureau, Department of State, Harrisburg, Pennsylvania.

As these were the only records I was able to locate within the time specified, if you desire something that is specific, I will make an attempt to locate that specific item.

COMMONWEALTH OF PENNSYLVANIA
STATE COUNCIL OF CIVIL DEFENSE
HARRISBURG

July 31, 1974

Hon. Patrick A. Gleason
Chairman, Select Committee on
Contract Practices
House of Representatives
Room B-10, Capitol Building
Harrisburg, Pennsylvania

Dear Mr. Gleason:

This is in response to your recent request for information concerning non-bid contracts.

The general practice long followed by the State Council of Civil Defense is to enter into non-bid contracts falling only into two general categories, each described below.

One class of agency contracts includes those covering lease and/or maintenance of standard office equipment, such as postage meters. With only an occasional exception, these are with the manufacturer, or manufacturer's representative, and are at "fixed government rates".

The second class relates to contracts for the supply of lodging and/or meals furnished county and local representatives attending special civil defense training sessions or classes. They constitute authorized sub-contracts under Federal-State "work contracts", whereunder the Federal Government reimburses the agency for the total payments made for the services rendered. (Where training locations permit, the sub-contracts are on an informal quotation basis, with award to the low quoter.)

As examples of the above, the agency's non-bid contracts for the past and current fiscal years are listed below.

I have received your letter of July 23, 1974 requesting a list of nonbid contracts entered into by this Department since January 1, 1966. However, we cannot meet the July 31 deadline, since the compilation of this material requires a thorough search of departmental records, many of which have been sent to the State Archives for storage.

The only material available at this time are lists of contracts previously submitted to the Senate and House Appropriations Committees for their 1973 and 1974 Hearings. Accordingly, those lists are attached and provided for your Committee's review.
