MEMO

SUBJECT: Presentment II : Greenscan

TO: All Committee Members and Staff

FROM: William R. Powell
Special Assistant to the Majority

Today Special Counsel are transmitting to the Committee, Presentment II pertaining to the investigations in Green County. This material is not being distributed during an executive session but Chairman Gleason has asked that it be treated as if it were being handed over to the Committee in executive session.

I would note that on the top of the file, which you are receiving, there are several unnumbered pages of documents which have been typed or checked for distribution within the last 24 hours and are therefore not numbered in the chronological file. These pages are presented, bound by a paperclip, in chronological order among themselves.

Thank you.
