ALL THIS AND MORE

Pennsycare (the first state health care for indigent program in the Nation); job training; new mass transit programs; new farm marketing projects; Constitutional Revision; Legislative reform; new industrial development ideas; new tourist programs.

Harvey Nitrauer . . .

He's given us an outstanding record of 100% attendance in the State Legislature since we elected him in 1966. He's helped lead the fight for better road building, for better educational facilities for our children, for safer highways and for stronger laws against criminals.

Harvey Nitrauer has been cited by Pennsylvania State Education Association as a "true friend of public education" and as a "spokesman and interpreter of school legislation in the Majority Caucus." His efforts for better highway safety resulted in an expression of "appreciation and gratitude" from the Pennsylvania AAA. He's been a strong supporter of farmers and is recognized as a real "problem solver" in the field of agriculture. His successful fight against legalizing gambling has made us proud of his efforts. Harvey Nitrauer has worked to stamp out crime by supporting an increase in manpower for the State Police and supporting the State Crime Commission.

As a member of the House Elections Committee he worked to reform the State's election laws so that corrupt elections would be a thing of the past. Philadelphia machine politicians stopped this reform on the last day of the Session . . . but Harvey Nitrauer promises to be back and to get those election laws straightened out.
