The Honorable Leo Trich  
378 W. Chestnut Street  
Washington PA 15301

Dear Rep. Trich:

I am enclosing information pertaining to the EFDA issue for your review. Presently, current revisions seriously compromise the survival of our A.S. degree Expanded Functions Program. I know you have been working with David Hess representing the P.D.A. and I am hopeful for positive results.

Since time is a critical factor for the continuation of this profession, I am also enclosing a draft of a potential bill satisfying degreed EFDAs as well as clinically trained auxiliaries.

I would appreciate any current information with regard to this matter. I am actively asking EFDAs and their dentists to support your effort. Please guide me if I may offer further help.

Sincerely,

CHERYL A. JANSSEN  
Director  
EFDA Program

Bruce -

I sent a copy to Rep Trich as well as to you. Please feel free to work with this draft - possible bill language for EFDAs. Thanks for your interest!
