

- Schools of Choice -

America - 2000 - An Education Strategy - "making this land all it should be"

9 yr. Crusade to move us toward 6 ambitious national goals. Bush

that were adopted by pres. + governors to close our skill-knowledge gap
Major changes in every Am. community - home + attitude about learning

bold - long-range - won't come quickly - national ~~plan~~ strategy, not federal program
Four parts - 1. today's students - improve 110,000 of them

2. tomorrow's students - new schools for new century. 535 by 1996
4,000 by 2000

3. for those of us already out of school & in work places -

4. for school to ~~success~~ ^{move from} Nation at Risk to Nation of students
must look beyond classrooms to communities +
families - to communities where learning can happen

until last year - few could describe our goals
