

Politicians  
&  
Bureaucrats

Politics — politics among your peers

1. Art or Science of Government

2. art or science concerned with guiding or

with influencing Governmental affairs.

3. Art or science concerned with winning

and holding control over a government.

4. Competition between competing interest groups

as individuals for power and leadership in govt. or  
in a group -

(5. the total complex of relation between man + society)

often - negative - overtones - dirty politics - ruthless  
dishonest - lack of integrity

There is no magical formula for <sup>bird story</sup> leadership - Each of you - have

your own style - each will develop that trait which seems to be best for you - Be careful to keep "the cause" as the group as <sup>the</sup> important ingredient - Develop your ability <sup>when to walk</sup> to listen, to delegate ~~authority to others~~ authority to others (not as simple as it sounds) to control your emotions - maintain self confidence - think positive. - be enthusiastic - Does your ego show? - no one likes an officious - domineering person despite their capabilities being a jerk in terms of yourself is short lived!

In conclusion the true + lasting test of leadership is not what happens to you but what happens to your group. The measurement of true leadership is not how you see, feel or your interest but rather how the group or they, see or feel and ~~their~~ interested in the problems + issues.

As you continue in your careers out of H.S. ~~the characteristics of~~ your leadership qualities will sharpen + tend to serve you well as you serve others in politics — The best politician is the one ~~you~~ <sup>who</sup> serves.

intelligence — perseverance — charm  
flexibility — persuasiveness

responsibility + responsiveness

awareness and insight

sensitivity —

encouragement —

aggressiveness, forceful — clear thinking —

All of these personal traits helped bring you to the position of leadership —

Sometimes the very ~~strong~~ <sup>nature</sup> to the traits that gave you this position — may work negatively after you assume your duties as leader —

Your aggressiveness may now be called ~~offensive~~ <sup>offensive</sup> - bold  
Your ability to make decision — may be + bossy or power hungry

So we must temper our personal qualities for leadership so that they do not overshadow the goals of the group

You, as student leader, serve your  
respective groups - football team / council - club / -  
musical team - etc - chorus - theatre -

You are the leader in terms of who you serve your  
groups - their - goals, objectives, purposes - Activities  
and achievements

You were elected leader - so that you could help them  
more in ~~meeting~~ <sup>attaining</sup> these goals

You bring to group - your personal attributes -  
Ability to make decisions  
Understanding & background of the group  
ability for groups to trust you + therefore they feel secure  
~~responsibility~~ -

Although the literature gives considerable attention to the type + classification of leadership, I wish to talk with you about the function of leadership as it serves the group - a leader of a group is only a leader in terms of the group -

You - the leader

Leadership  
is the  
Means

Leadership + the Group

to the end + not an end  
in itself.

Anyone helping the group clarify its goals and to  
make progress in reaching them is performing a  
leadership function -

role of leader. "he is <sup>on the</sup> leader of the  
group and is the leader only in terms of his  
functional relationship to the group -
