Mr. Mark Ransford

██████████
West Chester, PA 19380

Dear Mark:

I was so pleased to see you and your son at the Naturalization Ceremony today. I know how proud you must be. Congratulations!

November is Adoption Awareness Month. I know the U. S. Postal Service will be promoting this issue. I would like to ask for your support in my upcoming election. I thought perhaps you might consider writing a letter of support to the Daily Local News - I know how hard my office worked with helping you and now I am asking for support from you to help me with my victory in November.

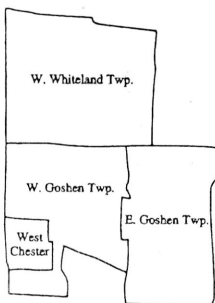

Thank you for your consideration.

Cordially,

Elinor Z. Taylor

HOUSE OF REPRESENTATIVES
156TH DISTRICT

October 17, 2000

William Talley, President
West Chester Borough Residents Assoc.
252 E. Market St., PMB #374
West Chester, PA 19382

Dear Mr. Talley

I received your letter of October 11, 2000. I noted that you cc: (carbon copy) Mr. Burton. Is he a member of your organization? Will you send me a membership list? I did not receive a cc: of your letter to Mr. Burton.

The Economic Impact Study states that "West Chester University hopes to continue to generate \$90M in annual economic benefits to Chester County". It also reports that West Chester University costs the local government sector approximately \$8M. The report acknowledges that "costs and benefits can not be quantified". The benefits of living in a college town include cultural, educational, and sports events sponsored by the university and a better-educated labor pool for local businesses.

In an effort to address the University's costs to the community, I prime sponsored HB 594, PN 349 on March 2, 1999. This legislation was reported out of the Education Committee May 8, 2000. The bill authorizes agreements between SSHE and local municipalities providing for payments to local fire and emergency services. It also includes a state appropriation. The bill was laid on the table October 2, 2000.

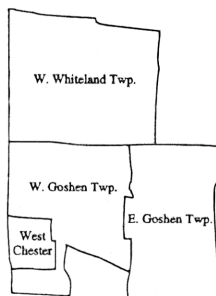

I believe the college has a responsibility for the conduct of students living in the borough and that accommodations for campus living must be a part of plans for university growth.

I can promise to work with your group and others towards resolution of problems that confront a college community. I do not believe in division, (i.e. "us" and "them" approach), but rather I look forward to an opportunity to work together toward reasonable solution.

Cordially,

Elinor Z. Taylor
