

CENTRAL PENNSYLVANIA ONCOLOGY GROUP

July 9, 1990

The Hon. Kenneth Cole
House of Representatives
Main Capitol Building
Harrisburg, PA 17109

Dear Ken:

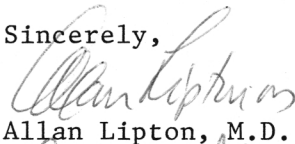

We understand that we are, once again, indebted to you for your continued support of our efforts in relation to cancer treatment, awareness and prevention in the Central Pennsylvania area.

We will continue to the best of our combined efforts to maintain the programs we are already successful with, as well as to develop and implement new ideas to bring our important messages to the professionals and people of the community we serve.

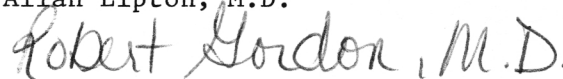

It has been our very real pleasure to serve the Legislature and the Central Pennsylvania Community in this capacity for the past sixteen years. We are grateful for the role you have played and for your foresight in knowing the importance of cancer awareness and prevention for your fellow Central Pennsylvania citizens.

Seven hundred eighty-eight professionals and 2,949 Pennsylvania residents attended our programs last year--- this could not have happened without you. We thank you and they thank you.

Sincerely,

Allan Lipton, M.D.

Robert Gordon, M.D.

Carole Bean
